DETAILED ACTION***Claim Rejections - 35 USC § 112***

Claims 8-15 and 40-44 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claim 8 as amended now requires that the semiconductor layer have "the same planar shape as the data conductive layer except for a portion located between the source electrode and the drain electrode." Examiner did not find any specific teaching of a substantially planar shape for a semiconductor layer having the relationship to source, gate and drain as required by amended claim 8. For example, Applicant's figure 4 shows under the numeral 154 that this semiconductor layer has downward inclining edges, rather than being in the form of a plane. Figure 17B shows, similarly, a semiconductor layer having steps under both source and drain electrodes (in addition to the recessed area between the source electrode and the drain electrode). Neither an incline nor a step would appear to be particularly "planar." Where is the support for the designation of "substantially . . . planar" as in claim 8?

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
